

Environmental Education Program Sample Schedules

Three Day Programs

Programming during a three day program includes eight separate Day Classes, three Evening Programs, and a Campfire. The Education Director will create a rotating schedule that allows each activity group to participate in each class.

Seven meals in the dining hall, as well as two nights of accommodations in the cabins are included in the cost of a three day program.

Specific arrival, departure and bed times are flexible to allow each program to be customized for specific school needs.

One Day Programs

Programming during a one day program usually includes three Day Classes, but depends greatly on the length of time a school is able to be at our Center. Some schools prefer to be back on their own school campus by regular dismissal time, while other like to make a longer day of it, staying at Betsy-Jeff Penn well into the late afternoon. The price is the same either way.

Meals in the dining hall are indeed available at an extra charge for One Day visitors, but there are also picnic facilities available at no charge, for those who prefer to "brown bag".
